"PAINT" is a name often given to a pinto (spotted) horse. In this piece, the treble E is sometimes played with the 3rd finger, sometimes with the 2nd.

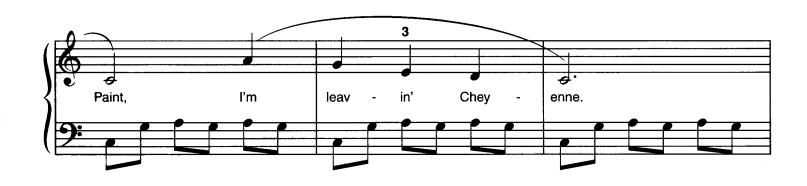

STRETCH a 3rd!

## Passing 1 under 2

#### **RIGHT HAND**

Play several times. Begin slowly.

- Keep the wrist loose and quiet.
- Listen carefully as you lift and drop each finger.
- Drop the thumb on the outside tip of the nail.

#### **LEFT HAND**

Play several times. Begin slowly.

Pass 1 under 2

#### **RIGHT HAND**

WALTZ PANTOMIME will test your attentiveness at reading melodic and harmonic intervals.

#### TEACHER'S NOTE:

- 1. The LH may be played staccato, except where slurred.
- 2. The repeat may be played  $8^{\nu a}$ , with notes marked  $8^{\nu a}$  played as written.
- 3. The final chord may be played with *tremolo*:

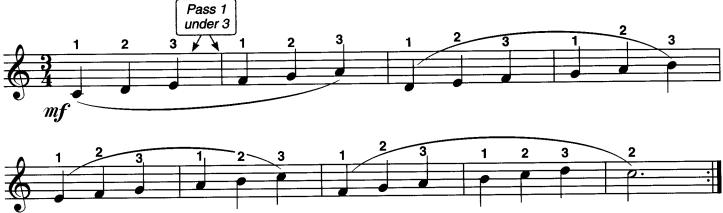

## Passing 1 under 3

#### **RIGHT HAND**

Play several times. Begin slowly.

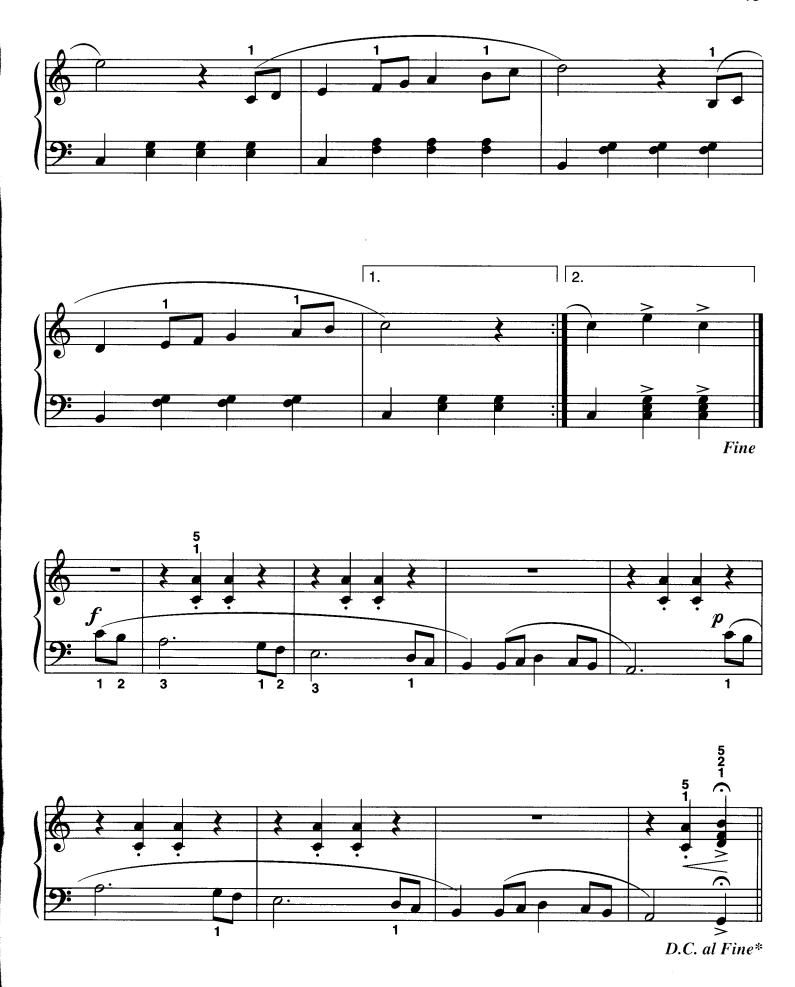

- Keep the wrist loose and quiet.
- After playing the first note of each phrase, carry the thumb at the base of the 3rd & 4th fingers.
- Drop the thumb on the outside tip of the nail.

#### **LEFT HAND**

Play several times. Begin slowly.

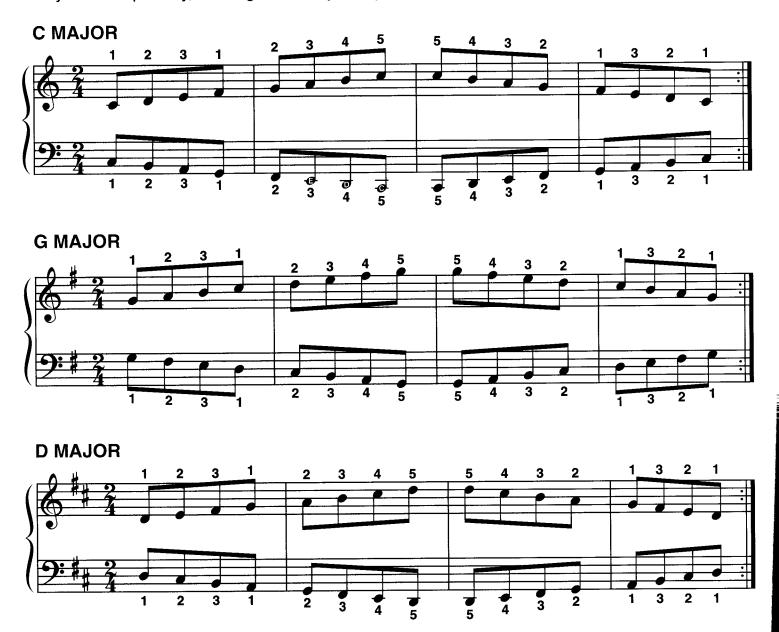

When playing D.C. al Fine, always omit the 1st ending and play the 2nd ending.

## **Major Scales in Contrary Motion**

When the hands move in opposite directions, one ascending as the other descends, it is called CONTRARY MOTION.

Play hands separately, then together. Play slowly at first, then gradually increase speed.

## Prelude IN 18th-CENTURY STYLE

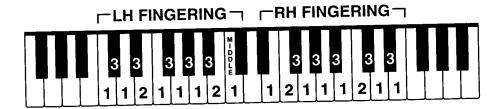

## **The Chromatic Scale**

The **CHROMATIC SCALE** is made up entirely of **HALF STEPS.**It goes up and down, using every key, black and white. It may begin on any note.

#### **FINGERING RULES**

- Use 3 on each BLACK KEY.
- Use 1 on each white key, except when two white keys are together (no black key between), then use 1 - 2, or 2 - 1.

- 1. Looking at the keyboard above, play the CHROMATIC SCALE with the LH. Begin on middle C and GO DOWN one octave.
- 2. Looking at the keyboard above, play the CHROMATIC SCALE with the RH. Begin on E above middle C and GO UP one octave.

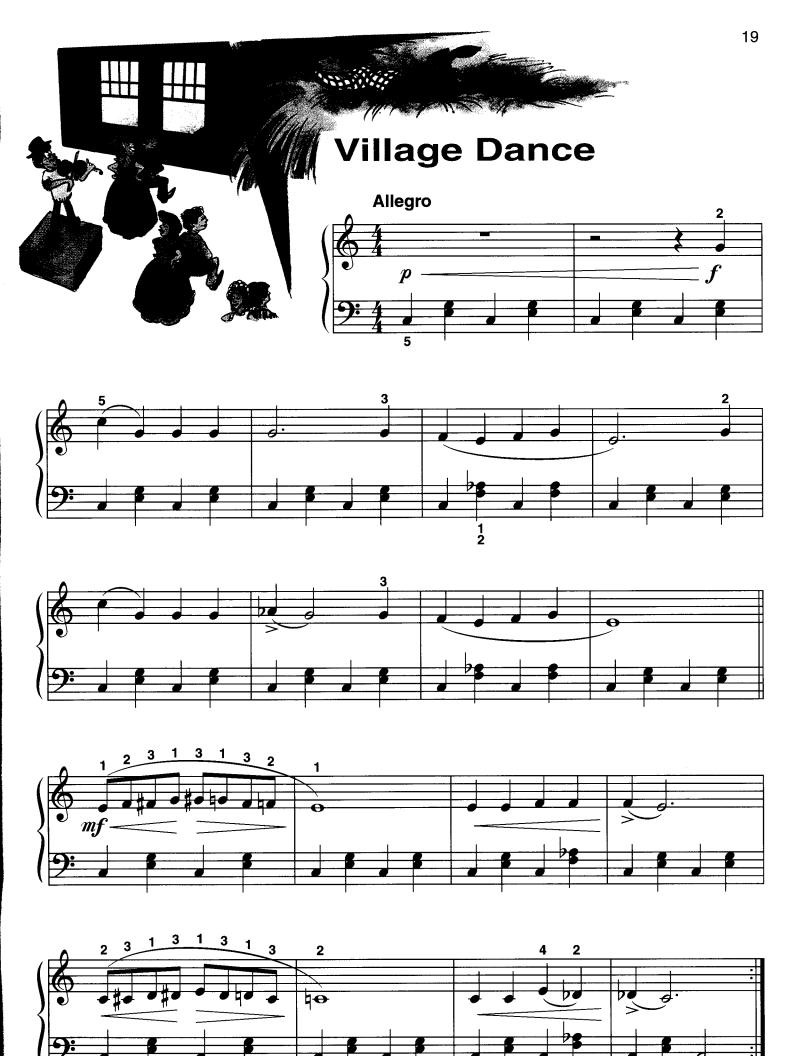

#### **Chromatic Warm-Ups**

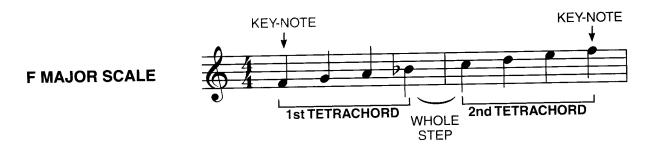

## **One-Octave Chromatic Scale**

Play several times daily!

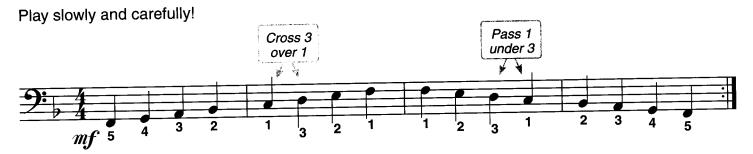

## The F Major Scale

The fingering for the F MAJOR SCALE with the LH is the same as for all the scales you have studied so far: 5 4 3 2 1 - 3 2 1 ascending; 1 2 3 - 1 2 3 4 5 descending.

To play the F MAJOR SCALE with the RH, the 5th finger is not used! The fingers fall in the following groups: 1 2 3 4 - 1 2 3 4 ascending; 4 3 2 1 - 4 3 2 1 descending.

## The F Major Scale in Contrary Motion

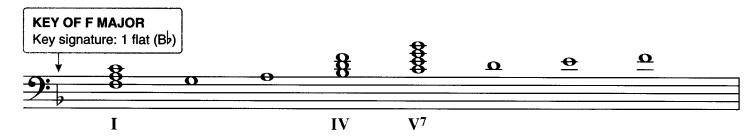

Play the hands separately at first, then together. Begin slowly and gradually increase speed. Play several times daily.

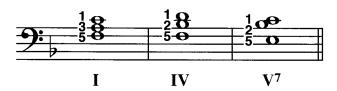

## The Primary Chords in F Major

Reviewing the F MAJOR SCALE, LH ascending.

#### **Primary Chords in F**

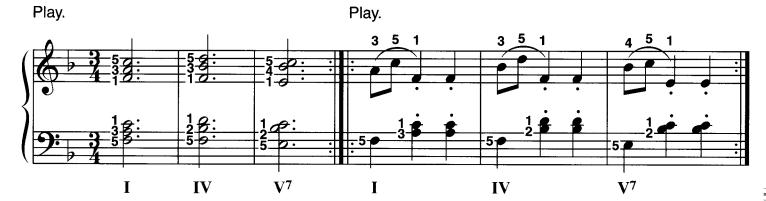

#### **F Major Chord Progression**

Play several times.

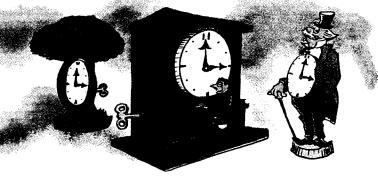

#### **BLOCK CHORDS**

#### **BROKEN CHORDS**

## A Day in Vienna

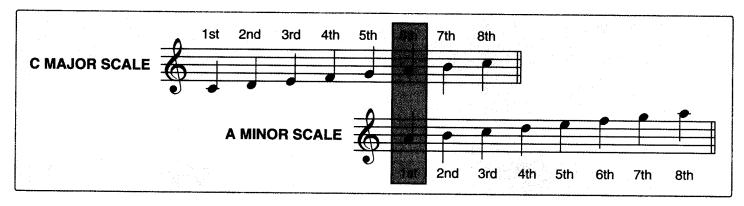

Moderate waltz tempo

#### **Minor Scales**

Every MAJOR KEY has a RELATIVE MINOR KEY that has the same KEY SIGNATURE. The RELATIVE MINOR begins on the 6th TONE of the MAJOR SCALE.

Because the keys of C MAJOR & A MINOR have the same KEY SIGNATURE (no ‡'s, no | 's), they are RELATIVES.

#### The Key of A Minor (Relative of C Major)

There are 3 KINDS of minor scales: the NATURAL, the HARMONIC, & the MELODIC.

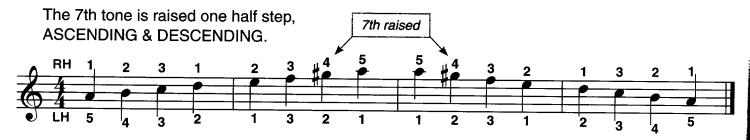

Practice each of the following scales, first with the RH, as written, then with the LH, 2 octaves lower than written.

#### 1. THE NATURAL MINOR SCALE

This scale uses only the tones of the relative major scale.

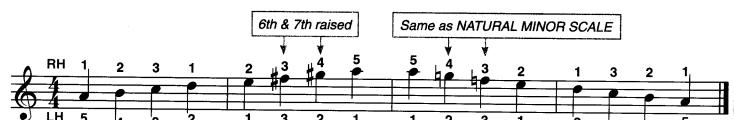

#### 2. THE HARMONIC MINOR SCALE

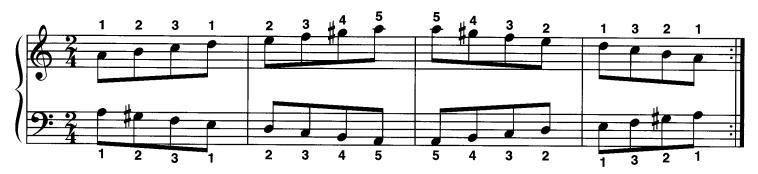

#### 3. THE MELODIC MINOR SCALE

In the ASCENDING SCALE, the 6th (F) & 7th (G) tones are raised one half step. The DESCENDING scale is the same as the natural minor.

#### The A Harmonic Minor Scale in Contrary Motion

Play several times daily!

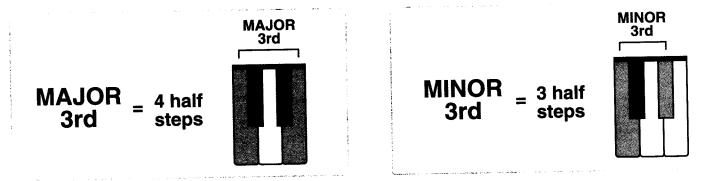

The A NATURAL MINOR and MELODIC MINOR SCALES may also be played in contrary motion by following the rules given on the preceding page.

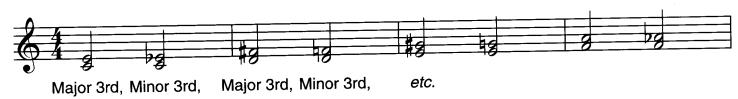

## More about 3rds

Some of the 3rds you have been playing are MAJOR 3rds, and some are MINOR (smaller) 3rds.

Any MAJOR 3rd may be changed to a MINOR 3rd by lowering the upper note ONE HALF STEP!

Play the following 3rds with RH 1 3. Say "Major 3rd, Minor 3rd" as you play each pair.

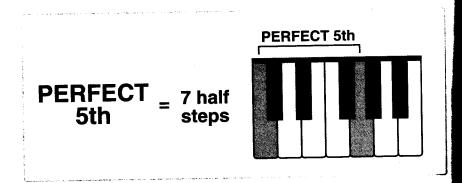

Repeat the above ONE OCTAVE LOWER, using LH 5 3.

## More about 5ths

All of the 5ths you have played so far are PERFECT 5ths.

Play the following 5ths with RH 1 5. Say "Perfect 5th" as you play each one.

Perfect 5th, Perfect 5th, etc.

Repeat the above ONE OCTAVE LOWER, using LH 5 1.

## **KEY OF C MAJOR**

Give us the word,

## **Make Up Your Mind!**

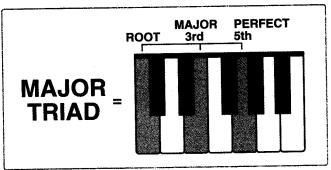

Is the mi - nor

Quite so su-per-la-tive?

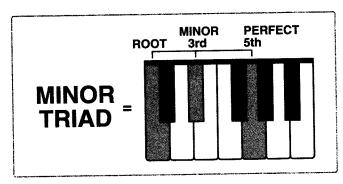

Is it rel-a-tive?

#### **More about Triads**

MAJOR TRIADS consist of a ROOT, MAJOR 3rd, & PERFECT 5th.

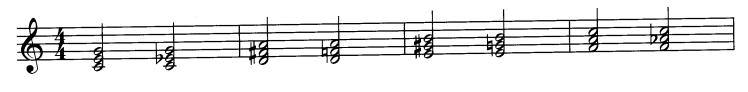

MINOR TRIADS consist of a ROOT, MINOR 3rd, & PERFECT 5th.

Any MAJOR triad may be changed to a MINOR triad by lowering the 3rd ONE HALF STEP!

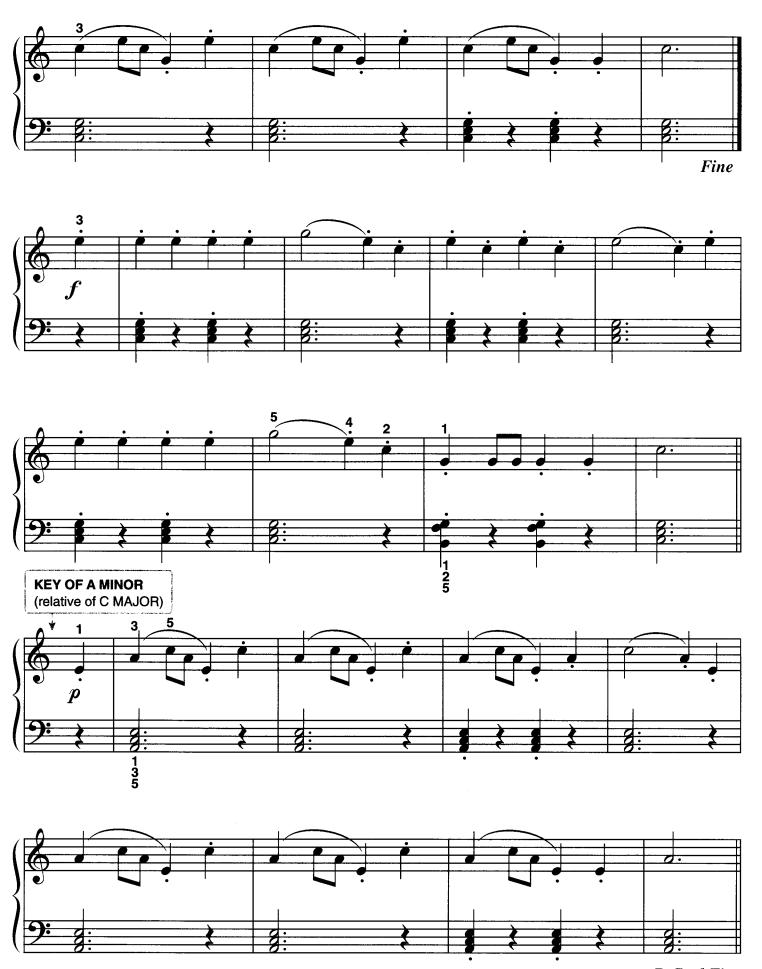

Play the following triads with RH 1 3 5. Say "C major triad, C minor triad," etc., as you play each pair.

Repeat the above ONE OCTAVE LOWER, using LH 5 3 1.

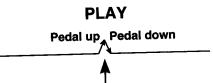

D.C. al Fine

## Introducing "Overlapping Pedal"

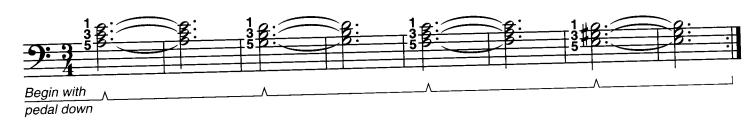

The following sign is used to indicate **OVERLAPPING PEDAL**:

Practice the following exercises before playing GREENSLEEVES.

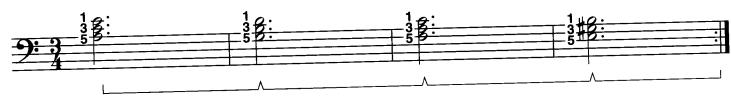

- Begin with the PEDAL DOWN.
- As you play each chord, let the pedal up and press it down again immediately. The pedal must come up exactly at the instant the notes come down, as if the pedal "comes up to meet the hand!"

At this point, the pedal **comes up**, and it goes down again immediately!

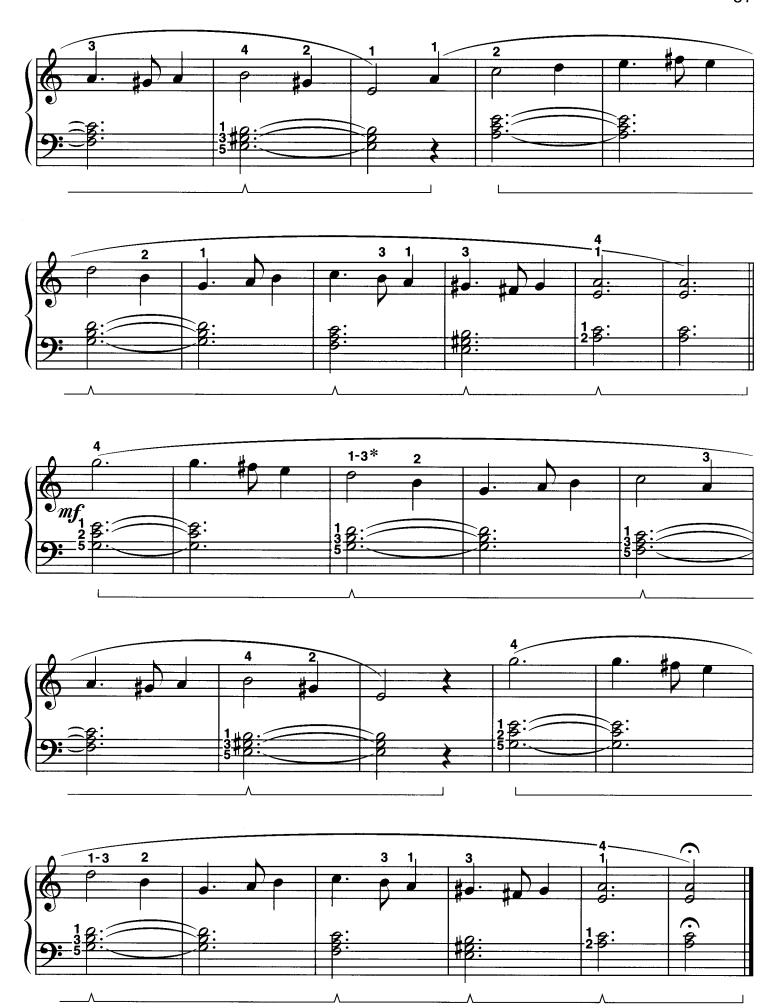

In the following line, pedal immediately after you play the first chord.

Which of the above triads are MAJOR triads? Which are MINOR triads?

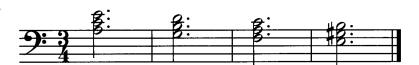

## **Fandango**

p

The FANDANGO is a lively Spanish dance with 3 beats per measure. It is usually based on this chord progression:

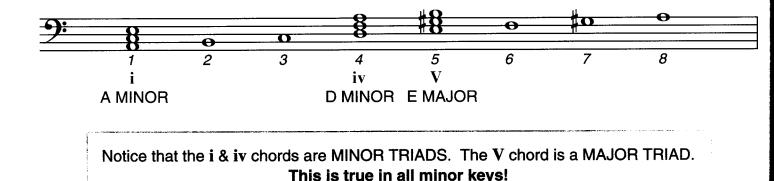

## The Primary Triads in Minor Keys

To find the primary triads in a MINOR KEY, the HARMONIC MINOR SCALE is used. In the A HARMONIC MINOR SCALE, the 7th note (G) is made SHARP, as an ACCIDENTAL.

Small (lower case) Roman numerals are used for minor triads (i), large (upper case) Roman numerals for major triads (V).

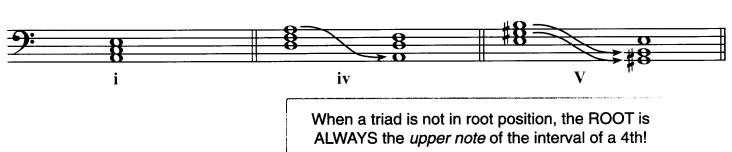

To make the chord progressions easier to play and sound better, the iv and V chords may be played in other positions by moving one or more of the higher chord tones down an octave.

The **i** chord is played in ROOT POSITION:

The top note of the **iv** chord is moved down an octave:

The 2 top notes of the V chord are moved down an octave:

#### The Primary Triads in A Minor

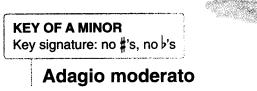

Play several times.

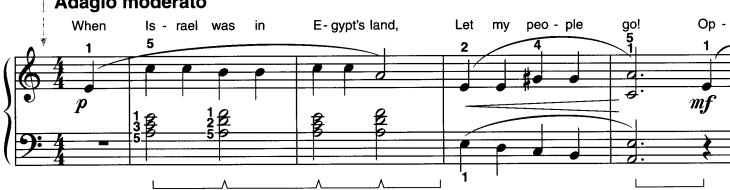

These are the same chords, one octave higher than the previous measures:

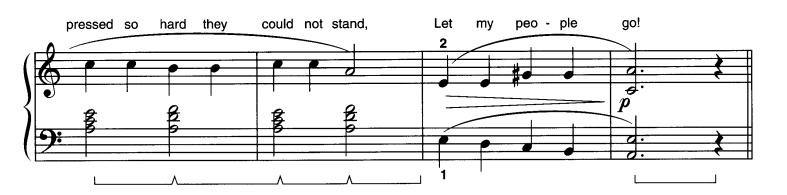

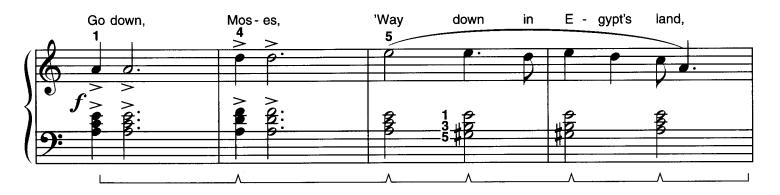

Go Down, Moses

Write the Roman numerals (i, iv, V) under the chords before you play.

## The Primary Chords in A Minor

#### USING $V^7$ INSTEAD OF V

Remember: The V<sup>7</sup> chord is made by adding a 7th to the V triad.

To play the chord so it makes a smoother progression, omit the 5th, and move the 3rd & 7th down an octave.

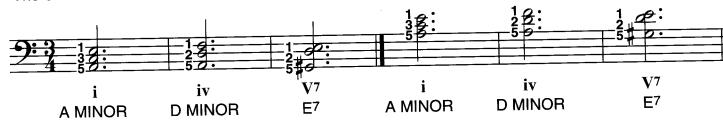

When a 7th chord is not in root position, the ROOT is ALWAYS the *upper note* of the interval of a 2nd!

The 3 PRIMARY CHORDS are now i, iv & V7.

The same chords, one octave higher.

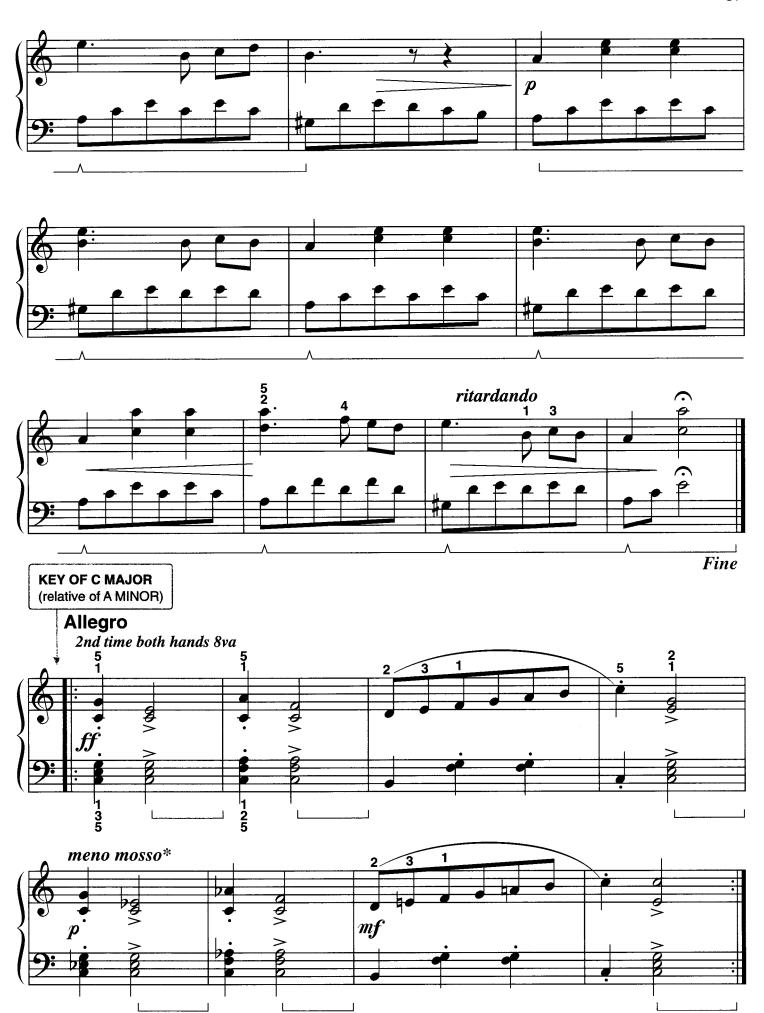

2

A MINOR PROGRESSION with broken  $i,\,iv\;\&\;V^7$  chords. Play several times.

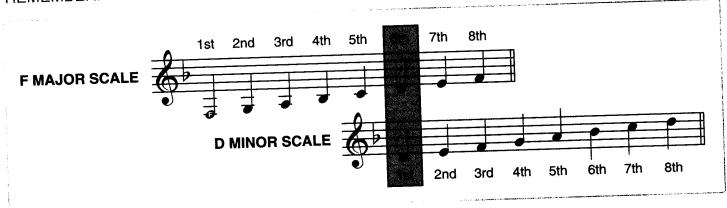

## The Key of D Minor (Relative of F Major)

**D MINOR** is the relative of **F MAJOR**.

Both keys have the same key signature (1 flat, Bb).

REMEMBER: The RELATIVE MINOR begins on the 6th tone of the MAJOR SCALE.

Practice each of the following scales, first with the RH, as written, then with the LH, 2 octaves lower than written.

1. THE NATURAL MINOR SCALE: Use the same tones as the relative major scale.

2. THE HARMONIC MINOR SCALE: 7th (C) raised one half step, ASCENDING & DESCENDING.

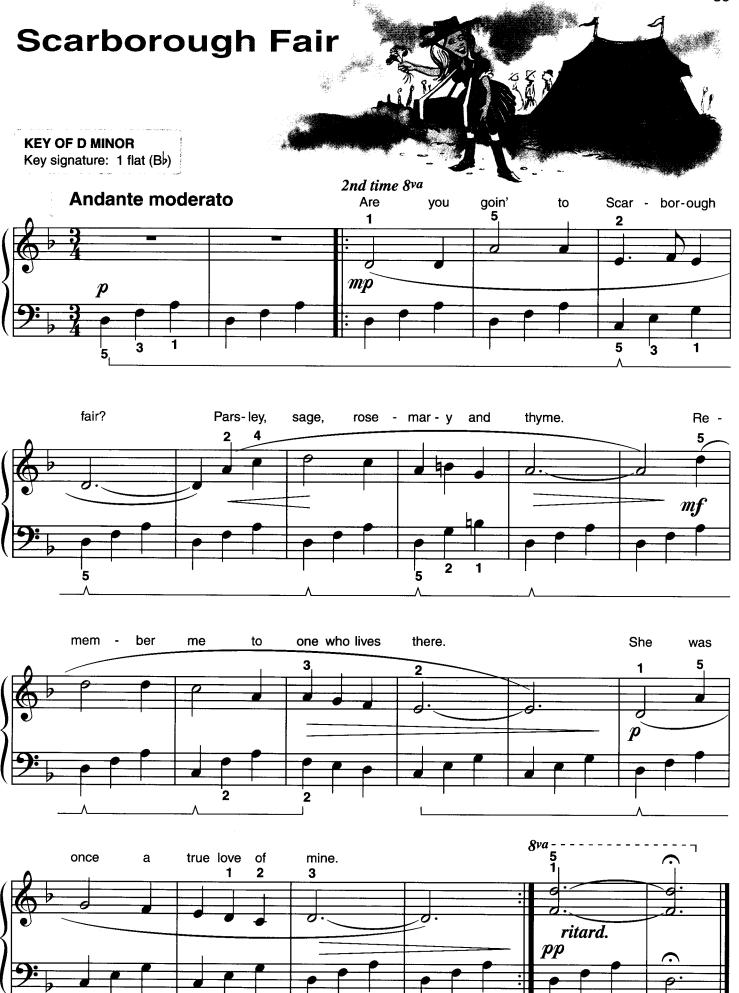

3. THE MELODIC MINOR SCALE: 6th (Bb) & 7th (C) raised one half step (to Bh & C#) ASCENDING; descends like natural minor.

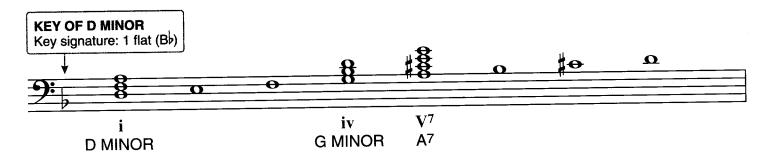

## The D Harmonic Minor Scale in Contrary Motion

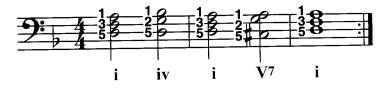

## The Primary Chords in D Minor

Reviewing the D MINOR SCALE, LH ascending.

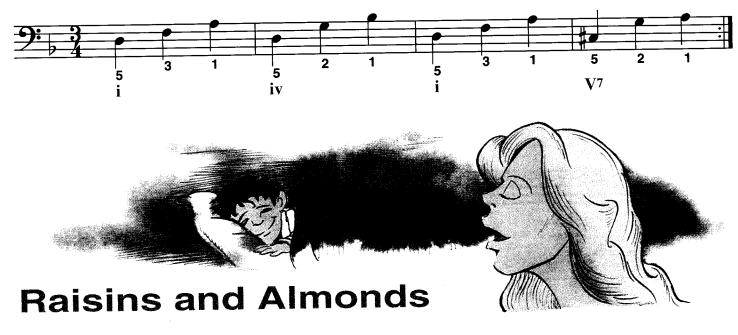

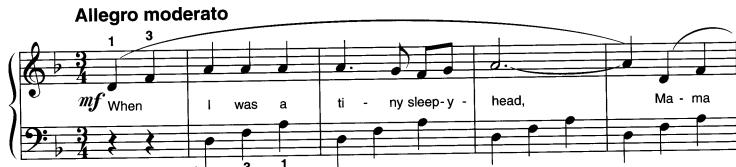

The following positions are often used for smooth progressions:

**D Minor Chord Progression.** Play several times.

D MINOR PROGRESSION with broken i, iv & V7 chords. Play several times.

A PIANO COURSE FOR BEGINNERS OF ALL AGES

**Alfred's Basic Piano Library** offers nine perfectly graded beginning series which are designed to prepare students of all ages for a successful musical learning experience. With the exception of **Alfred's Basic Adult Piano Course**, which is complete in itself, all of the beginning series are interchangeable at several levels (see arrows below), and lead into the main **Alfred's Basic** course, which is complete through Level 6 (seven levels all together). This course, then, is the most flexible of any method in allowing the teacher to personally design a specific curriculum according to the age and needs of each individual student. On completion, the student is ready to begin playing the great piano masterworks.
